## Activity Design Appraisal Framework

ROUND SIX – Updated July 2024

# Appraisal of Activity Designs

Ministry of Foreign Affairs and Trade (MFAT) bilateral, Post, Partnerships and sector/thematic teams will be involved in appraisals drawing on independent external support and expertise as necessary.

Assessment of the Activity designs will be based on the four assessment areas: the Strategic Case, Scope, Financial Management and Value for Money, and the Management Case.

## 1. Strategic Case

An analysis of the context in which the Activity will take place. It should provide sufficient information for someone not familiar with the context and the local development needs to be able to understand the issues.

## 2. Scope

The Activity Design which includes an explanation of what changes the Activity is expected to bring, the time frame of the Activity, and the resources required. A detailed implementation workplan should be provided in Appendix A in a format based on the NGO applicant's systems and processes.

## 3. Financial Management and Value for Money

Describes the Activity cost and value for money. A detailed Activity budget should be provided in Appendix B in a format based on the NGO applicant's systems and processes.

## 4. Management Case

Sets out the main issues and factors affecting how the proposed Activity will be delivered on the ground.

Applicant's responses in each area will be assessed according to the appraisal framework provided below and assigned a rating from 0-4 with totals collated at the end of the assessment. Each of these four assessment areas has been weighted at 25%.

Rating Number	Rating	Rating Description
4	Very strong	No amendments required
3	Strong	Very good quality; minor clarifications or changes in order to proceed
2	Sufficient	Adequate quality requiring some changes to improve
1	Inadequate	Less than satisfactory; needs amendments in key areas
0	Does not meet requirements (DNMR)	Poor; requiring major changes/redesign in order to proceed

## 1 Activity Design Appraisal Framework

Design Template Section	Guiding questions to make an informed and objective assessment. Compelling positive answers will increase the rating.	Assessment rating
-------------------------	---	-------------------

### 1. Strategic Case (5 pages maximum excluding high level statement)

*Provide an analysis of the context in which the Activity will take place. It should provide sufficient information for someone not familiar with the context and the local development needs to be able to understand the issues. Referenced evidence from international best practice should be included.*

High Level Statement and opportunity [250 characters]	<ul style="list-style-type: none"> <li>• Check summary section on page 1 for response to this.</li> <li>• Does the applicant clearly articulate what success looks like and is it feasible?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>
1.1 Development problem	<ul style="list-style-type: none"> <li>• Is the problem clearly articulated and understandable?</li> <li>• Is it clear how this problem was identified?</li> <li>• Is there a compelling reason to address this issue now?</li> <li>• Is there good rationale for the selected location of the Activity? Is it a remote and or difficult to reach location?</li> <li>• Will the Activity reach/benefit vulnerable and/or marginalised people and groups<sup>1</sup>? Is it clear how they were identified?</li> <li>• Does the applicant provide research or evidence to substantiate claims?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>
1.2 Development Context - social, economic and political	<ul style="list-style-type: none"> <li>• Is there adequate evidence of contextual analysis?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient</p>

<sup>1</sup> Defined as people and groups experiencing, or at risk of, discrimination and exclusion by historic, existing and [or] emerging economic, social, geographic and political inequalities, and humanitarian situations of crisis, conflict and fragility, which render them disadvantaged and at risk of being left behind by the usual development processes and benefits.

### 1. Strategic Case (5 pages maximum excluding high level statement)

*Provide an analysis of the context in which the Activity will take place. It should provide sufficient information for someone not familiar with the context and the local development needs to be able to understand the issues. Referenced evidence from international best practice should be included.*

	<ul style="list-style-type: none"> <li>Does the context analysis show a clear understanding of local social, economic, political, and environmental and infrastructure factors, as well as how the problem developed and how the conditions might impact the project?</li> <li>Does the analysis consider equity, social inclusion and/or other human rights concerns?</li> </ul>	<p>3 = <i>Strong</i> 4 = <i>Very strong</i></p>
1.3 Relevance to NZ Aid Programme objectives and developing partner plans	<ul style="list-style-type: none"> <li>Is it clear how this Activity aligns with (or is complementary to) New Zealand Aid Programme (ICESD) and in-country government development priorities?</li> <li>Is it clear the Activity aligns with the geographical and sector focus of Manaaki?</li> <li>Does the design reference or align with other regional/sectoral or other policy/guideline priorities, such as the International Cooperation for Effective Sustainable Development and other New Zealand Aid Programme priorities, Sustainable Development Goals, or synergies with other donors?</li> <li>Is it clear how the Activity will strengthen local civil society and reach vulnerable and/or marginalised people and groups<sup>2</sup>?</li> </ul>	<p>0 = <i>DNMR</i> 1 = <i>Inadequate</i> 2 = <i>Sufficient</i> 3 = <i>Strong</i> 4 = <i>Very strong</i></p>
1.4 Related Activities	<ul style="list-style-type: none"> <li>Does the proposed design explicitly reference and build on lessons learned from other interventions and best practice?</li> <li>Is the Activity a continuation of previous MFAT-funded work? Is there a strong rationale for a subsequent phase and is it clearly additional to any previous work?</li> <li>Does the Activity fit within the broader work in the planned location or sector i.e does it avoid duplication?</li> <li>Does the design describe the work of other organisations or agencies/discuss opportunities for potential collaboration?</li> </ul>	<p>0 = <i>DNMR</i> 1 = <i>Inadequate</i> 2 = <i>Sufficient</i> 3 = <i>Strong</i> 4 = <i>Very strong</i></p>

#### Strategic Case

#### Average Rating

<sup>2</sup> See footnote 1 on page 2.

## 1. Strategic Case (5 pages maximum excluding high level statement)

*Provide an analysis of the context in which the Activity will take place. It should provide sufficient information for someone not familiar with the context and the local development needs to be able to understand the issues. Referenced evidence from international best practice should be included.*

## 2. Scope – Activity Design and Description (5 pages maximum excluding appendices)

*This section should explain what changes the Activity is expected to bring, the time frame of the Activity, and the resources required. A detailed implementation workplan should be provided in Appendix A in a format based on your systems and processes.*

2.1 Options	<ul style="list-style-type: none"> <li>• Were a sufficiently wide range of options considered to address the problem? Was the short list comprehensively assessed against relevant criteria?</li> <li>• Is the rationale for selecting the proposed option made clear including the level of consensus and who was involved?</li> <li>• Does the intended approach appear appropriate and feasible based on the context/issues?</li> <li>• Was there sufficient review of the scope either internally or externally?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>
2.2 Activities, outputs and outcomes	<ul style="list-style-type: none"> <li>• Are the activities (tasks), outputs and approach clearly articulated, measurable and aligned to addressing the problem?</li> <li>• Does the design adequately identify who or what is expected to change, the type of change expected and when that change is expected to occur as a result of this project.</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>
2.3 Effectiveness, assumptions and constraints	<ul style="list-style-type: none"> <li>• Is the explanation as to how activities and inputs will be delivered on time feasible?</li> <li>• Do the activities, inputs and outputs relate to outcomes and is it clear how they will they transfer into the outcomes?</li> <li>• Are assumptions, interdependencies, constraints clearly presented. Are they logical/reasonable?</li> <li>• Is there is a clear presentation of the theory of change in diagrammatic and narrative form?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>

## 2. Scope – Activity Design and Description (5 pages maximum excluding appendices)

*This section should explain what changes the Activity is expected to bring, the time frame of the Activity, and the resources required. A detailed implementation workplan should be provided in Appendix A in a format based on your systems and processes.*

2.4 Participation	<ul style="list-style-type: none"> <li>• To what extent were local people, groups and/or communities (i.e. the vulnerable and/or marginalised<sup>3</sup>) involved in/consulted regarding the development of this design? Is there evidence of responding to local voice; articulation of local CSO/community priorities and how the Activity will strengthen the ability of these groups to engage and influence through delivery?</li> <li>• Is there a clear and informed understanding of the local community and its structures/networks?</li> <li>• Is it clear how local communities will be involved through different stages of the Activity i.e. in improving localisation, providing feedback and in having an increased voice including to better represent local needs long term? For applicants partnering with government agencies, how will they ensure participation (i.e. will they also partner with local CSOs or incorporate community-based interventions)?</li> <li>• Has it been presented how stakeholder/networks might support /enable and or present obstacles to the implementation of the project/achievement of outcomes?</li> <li>• Are direct/indirect beneficiary numbers provided and broken down by gender, location, disability status, age, etc...?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>
2.5 Inclusive Development, Climate Change and Environment	<ul style="list-style-type: none"> <li>• Does the design explain how the Activity delivery will support gender equality and engage/benefit/reach people living with disability and vulnerable and/or marginalised people and groups? i.e. Does the design:                             <ul style="list-style-type: none"> <li>– Include a gender analysis (e.g. identifying the needs and engagement of women and men, girls and boys, and the gender diverse; and describe gender roles and barriers)?</li> <li>– Identify specific actions to support gender equality?</li> <li>– Identify specific actions to genuinely engage people with disabilities?</li> <li>– Ensure collection of disaggregated data (by sex and other indicators of inclusion/exclusion)</li> <li>– Have a focus on accessing remote or marginalised or other excluded groups?</li> </ul> </li> <li>• Has participation been carefully considered/intentionally supported for all gender groups as well as the vulnerable and/or marginalised?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>

<sup>3</sup> See footnote 2 on page 2.

**2. Scope – Activity Design and Description (5 pages maximum excluding appendices)**

*This section should explain what changes the Activity is expected to bring, the time frame of the Activity, and the resources required. A detailed implementation workplan should be provided in Appendix A in a format based on your systems and processes.*

	<ul style="list-style-type: none"> <li>Does the design discuss how investment in this Activity will be climate resilient (e.g how would an Activity building a new water supply avoid or mitigate a water supply scarcity; what are the mitigations for an agricultural Activity should the community face drought?)</li> <li>Does the design identify possible opportunities (beyond do no harm) to promote environmental integrity, sustainability, support adaptation to climate change, promote emissions reductions and/or improve resilience to natural hazards?</li> </ul>	
2.6 Do No Harm	<ul style="list-style-type: none"> <li>Are there robust mechanisms and relationships that would enable open and honest dialogue between NZ and the local partner (including ensuring safeguarding and PSEAH concerns can be raised)?</li> <li>Does the design articulate how activities will do no harm to the local population and the environment?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>
2.7 Implementation and workplan Appendix	<ul style="list-style-type: none"> <li>Is the implementation/work plan clear, logical and feasible with high level milestones?</li> <li>Does it allow for/enable reflections and adaptive design based on lessons learnt?</li> <li>Does it align with the proposed outputs and scope?</li> <li>Does it correlate with the budget and resources proposed?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient                      3 = Strong                      4 = Very strong</p>

<b>Scope Case</b>	<b>Overall Rating</b>
-------------------	-----------------------

**3. Financial management and value-for-money (4 pages maximum including high level budget but excluding appendix)**

*A detailed Activity budget should be provided in Appendix B in a format based on the NGO applicant's systems and processes.*

3.1 Efficiency and value-for-money	<ul style="list-style-type: none"> <li>Have explanations as to how costs were determined been comprehensively presented?</li> <li>Is the cost effectiveness/value-for-money clearly articulated?</li> <li>Are there any concerns/apparent gaps in the costings, explanations (including of how value-for-money was assessed) and/or assumptions?</li> </ul>	<p>0 = DNMR                      1 = Inadequate                      2 = Sufficient</p>
------------------------------------	---	---

**3. Financial management and value-for-money (4 pages maximum including high level budget but excluding appendix)**

*A detailed Activity budget should be provided in Appendix B in a format based on the NGO applicant's systems and processes.*

	<ul style="list-style-type: none"> <li>Based on what is presented, is it reasonable to assume this Activity would not happen without MFAT support?</li> </ul>	<p>3 = Strong 4 = Very strong</p>
3.2 Explanation of financial management	<ul style="list-style-type: none"> <li>Is there evidence that local partners were involved in decision making about the whole budget including NZ based costs? Is it clear how the budget will enhance localisation?</li> <li>Has the NZNGO confirmed how and when the co-investment will be provided? Is it clear how it will meet the Manaaki requirements for NZ sourced co-investment (at least 60% of the total NGO co-investment)?</li> <li>Are explanations as to in-kind contributions reasonable/substantiated?</li> <li>Is it clear how the budget links to achieving results, and how this will be monitored?</li> <li>Are the procurement processes and sourcing arrangements appropriate?</li> <li>Has the NZNGO adequately considered risks and mitigations with regards to cost over-runs including forex fluctuations and inflation?</li> <li>Is there confirmation as to how the budget meets MFAT budget requirements?</li> </ul>	<p>0 = DNMR 1 = Inadequate 2 = Sufficient 3 = Strong 4 = Very strong</p>
3.3 High-level Activity Budget Table Explanation and Detailed Budget Assessment of Appendix B (in NZD, excluding GST)	<ul style="list-style-type: none"> <li>Has a complete budget amount been presented and are calculations accurate?</li> <li>Does the budget appear reasonable and good value for money? Do costs appear sufficient or excessive to provide all the resources and inputs required for outputs including MERL costs?</li> <li>Does the budget meet all MFAT budget requirements?</li> <li>Is the financial structure in regard to MFAT co-investment and other co-investment adequately presented including from the NZNGO and local CSO/partner?</li> <li>Do in-kind contributions meet requirements (up to 30% of the NGO co-investment)?</li> </ul>	<p>0 = DNMR 1 = Inadequate 2 = Sufficient 3 = Strong 4 = Very strong</p>
<b>Financial management and value-for-money</b>		<b>Average Rating</b>

#### 4. Management Case (4 pages maximum excluding appendices)

*Set out the main issues and factors affecting how the proposed Activity will be delivered on the ground.* A MERL Framework should be provided as Appendix C; an Organisational Chart showing management arrangements should be provided as Appendix D; and a Risk Management and Healthy and Safety Plan as Appendix E.

4.1	Management roles and responsibilities	<ul style="list-style-type: none"> <li>• Has an organisational chart showing management arrangements been clearly presented and explained?</li> <li>• Are the roles and responsibilities of the direct beneficiaries, the local CSO/partner and the NZNGO clearly presented, including those in the implementation team? Is it clear how these role and responsibilities were discussed and confirmed?</li> <li>• Does the design adequately explain the value the NZNGO will add throughout the Activity's lifecycle e.g. specific expertise, support or resources that will be contributed?</li> <li>• Is there evidence that appropriate due diligence has been undertaken in line with standard 17 of MFAT's due diligence framework?</li> <li>• Is the collective experience of the respective parties to undertake this Activity adequately substantiated?</li> <li>• Is there evidence of capacity assessment/capability mapping by the local partner (self-assessment) and/or the NZNGO having undertaken or accessed (from an appropriate third party) capacity assessment of partner/s to identify strengths and weaknesses?</li> <li>• Is there evidence of a capacity /capability building/organisational strengthening plan including how strengthening will occur, how it will be monitored and resourced and how the NZNGO will ensure relevant support/collaboration is sought if required?</li> </ul>	<p>0 = DNMR                  1 = Inadequate                  2 = Sufficient                  3 = Strong                  4 = Very strong</p>
4.2	Governance arrangements	<ul style="list-style-type: none"> <li>• Are the governance arrangements explained, including frequency of meetings, how any conflicts will be managed and how decisions will be made? Are these arrangements sufficiently robust to address issues as they arise throughout activity implementation?</li> </ul>	<p>0 = DNMR                  1 = Inadequate                  2 = Sufficient                  3 = Strong                  4 = Very strong</p>
4.3	Monitoring, evaluation, research and learning (MERL)	<ul style="list-style-type: none"> <li>• Is the detailed implementation MERL Framework provided in Appendix C fit-for-purpose and clear as to how the outputs will contribute to outcomes?</li> </ul>	<p>0 = DNMR                  1 = Inadequate                  2 = Sufficient</p>

#### 4. Management Case (4 pages maximum excluding appendices)

*Set out the main issues and factors affecting how the proposed Activity will be delivered on the ground.* A MERL Framework should be provided as Appendix C; an Organisational Chart showing management arrangements should be provided as Appendix D; and a Risk Management and Healthy and Safety Plan as Appendix E.

	<ul style="list-style-type: none"> <li>• Are sufficient resources budgeted for MERL activities? <span style="float: right;"><i>3 = Strong</i></span></li> <li>• Based on what is presented, is it reasonable to assume the NGO and its partners can perform the implementation and MERL tasks required? <span style="float: right;"><i>4 = Very strong</i></span></li> <li>• Does the MERL Framework provided in Appendix C and any information provided in section 2 adequately describe/include?                             <ul style="list-style-type: none"> <li>– Diagram of the theory of change</li> <li>– How results will be monitored, measured, and reported</li> <li>– Any ‘stop/go’ decision points</li> <li>– Roles &amp; responsibilities and accountabilities (who is responsible for MERL activities, what and when including explaining any variance)</li> <li>– Any independent Activity Evaluations and/or Post-Activity evaluations</li> <li>– SMART qualitative and quantitative indicators of change</li> <li>– How baseline data will be collected and used to compare/verify results over time</li> <li>– Mechanisms for collecting beneficiary feedback</li> <li>– How reflection will occur and lessons integrated into delivery</li> <li>– How research/learning from this Activity will be communicated with MFAT/NGO supporters/local community/other development actors</li> <li>– How MERL data will be used for decision making and adaptive management (e.g. through annual partner learning forums)?</li> </ul> </li> </ul>
4.4 Risk management and safety planning	<ul style="list-style-type: none"> <li>• Have key risks (Activity, health and safety, safeguarding and reputation, climate change impacts) been presented and prioritised (e.g. rated for seriousness/impact) and addressed in the Risk Management and Health and Safety Plan in Appendix E including those related to COVID-19? <span style="float: right;"><i>0 = DNMR</i></span></li> <li>• Are these risks reasonable and relevant to the proposed Activity and context? <span style="float: right;"><i>1 = Inadequate</i></span></li> <li>• Have sensible strategies to manage risks been presented? <span style="float: right;"><i>2 = Sufficient</i></span></li> <li>• Are there any significant risks that have not been identified by the NGO? <span style="float: right;"><i>3 = Strong</i></span></li> <li>• Is the NGO’s risk assessment process adequate? <span style="float: right;"><i>4 = Very strong</i></span></li> <li>• Has the risk analysis appropriately assessed the risk for child protection and provided appropriate mitigations (depending on the extent of engagement with children)? Is there</li> </ul>

#### 4. Management Case (4 pages maximum excluding appendices)

*Set out the main issues and factors affecting how the proposed Activity will be delivered on the ground.* A MERL Framework should be provided as Appendix C; an Organisational Chart showing management arrangements should be provided as Appendix D; and a Risk Management and Healthy and Safety Plan as Appendix E.

evidence that implementing partners are aware of child protection risks and have taken steps to prevent incidences? Would partners, beneficiaries, children, families etc know where, when and how to report incidences i.e. signage at sites? Are there appropriate referral protocols for relevant services such as as Police and support services?

- Is a process explained to review and update risks in a timely manner to inform on-going implementation monitoring, decision-making, management and communication of risks?
- Have the risks been carefully considered including the likelihood and consequences of each occurring, with assessment ratings for before and after mitigations are in place?
- Does the Health and Safety plan demonstrate that leaders and workers are competent in the day-to-day work they manage, supervise or conduct (i.e. that the organisation/s monitor/ensure the competency of workers or volunteers such as via hazard identification, safety leadership or training)?
- Does the Health and Safety plan demonstrate how consultation, co-ordination and co-operation will occur through the lifecycle of the activity including how external feedback and complaints are handled?
- Is the Health and Safety plan relevant to the activity and fit-for-purpose?

4.5 Communications and stakeholder planning

- Does the NZNGO clearly identify key stakeholders and how they will be engaged?
- Has the NZNGO clearly described its relationship and contact with the New Zealand public and how it will engage with the New Zealand public during implementation?

0 = DNMR
