

# International Development Cooperation (IDC) Priorities Framework

## MFAT Strategic Framework

GOAL

### A SAFE, SECURE AND JUST FUTURE – HE AO HAUMARU

New Zealand and its people are safer abroad and at home

The rule of law, human rights and global security are protected and advanced

The Pacific and Indo-Pacific regions are secure and stable

OUTCOMES

## IDC Programme

### Our priorities in the Pacific:

Strengthened democratic norms and **accountable institutions** and public services

Enhanced ability to address wide-ranging **transboundary security threats**

Pacific national security sectors are able to **manage internal security challenges** in a manner consistent with human rights

Partner governments and other humanitarian actors in the Pacific are prepared for, and lead, effective and inclusive **humanitarian responses to disasters and crises**

### Our priorities outside of the Pacific:

New Zealand's global development assistance contributes to **peace, security and stabilisation**

With support from New Zealand, crisis affected countries and communities are **accessing the assistance and protection** they need, especially those most vulnerable

GOAL

### A PROSPEROUS AND RESILIENT FUTURE – HE AO TŌNUI

The international trade and economic environment is fair and favourable for New Zealand businesses

The Pacific and Indo-Pacific regions are more prosperous and resilient.

New Zealand exporters have the tools, knowledge and support they need to thrive in overseas markets

OUTCOMES

Strengthened **social resilience and inclusion** supports achievement of the Sustainable Development Goals in the Pacific

Functioning Pacific economies, with strong and stable institutions, **support livelihoods** and benefit from trade, labour mobility and other safe people movement

**Enhanced resilience** and economic integration in South and South-East Asia

**Increased economic returns** and food security benefits as a result of climate-smart agriculture

GOAL

### A SUSTAINABLE FUTURE – HE AO PŪMAU

The impact of climate change is mitigated through an effective global response

The sustainability of the natural environment in our region is protected and enhanced, including its oceans, biodiversity and Antarctica

Pacific countries have increased resilience to natural hazards and the intensifying impacts of climate change

OUTCOMES

Enhanced resilience and adaptation to the impacts of climate change in the Pacific

**Biodiversity is sustainably used** and managed; and ecosystem functions valued, maintained and enhanced, supporting the achievement of sustainable development

Developing countries **accelerate action on their mitigation priorities** (including those in their Nationally Determined Contributions) in a cost-effective way

Developing countries increasingly adopt **emissions-reducing technologies** and practices in agriculture, land-use, forestry, tourism, energy and land and maritime transport

# International Development Cooperation (IDC) Performance Framework

MFAT strategic goals

**A SAFE, SECURE AND JUST FUTURE**

**Government Effectiveness Index** for Pacific bilateral partners

No. of Pacific Island countries that remain on track on their **economic and public sector reform** programme

**NUMBER OF PEOPLE:**

receiving training or capability-building in **governance**

receiving training or capability-building support in **peace and security**

affected provided with essential and useful assistance following a **natural or human induced disaster**

**A PROSPEROUS AND RESILIENT FUTURE**

**Outcome indicators** demonstrate movement towards the Ministry's goals.

**Sustainable Development Goal** progress by Pacific bilateral partners

**Growth rate of GDP** for Pacific bilateral partners

**IDC Appropriation measures** results are directly attributable to New Zealand's IDC funding.

**NUMBER OF PEOPLE:**

participating in a **labour mobility initiative**

benefitting from enhanced **learning through ICT**

% of people that complete tertiary or vocational **training scholarships**

receiving training or capability-building in:

- **infrastructure**
- **equity & inclusion**
- **health**
- **education**

directly benefitting from **improved infrastructure and services**

supported to **improve their livelihoods**

benefitting from **sexual and reproductive health services**

**A SUSTAINABLE FUTURE**

Pacific bilateral partner **vulnerability to climate change**

**Proportion of key tuna fish** within biologically sustainable limits in the Pacific

No. of people directly benefitting from activities which aim to increase **resilience to climate change and environmental degradation**

No. of hectares of natural resources and natural ecosystems **strengthened by NZ supported activities**

**CO2 emissions reduced** as a result of NZ supported activities

No. of countries NZ is supporting to deliver on, and accelerate the delivery of, their **National Adaption Plan** or equivalent

No. of people receiving training or capability-building in **fisheries and oceans**
